

Gowrie

swede

Very high yielding general purpose swede with resistance to clubroot and powdery mildew.

Breeder: SCRI

This variety was added to the UK National List in 2006 and is protected by Plant Breeders' Rights.

Agent: Limagrain UK Limited (LG).

Breeding:

- Airlie x Invitation.
- Single seed descent.
- Multiplication of F7 family to produce uniform inbred-line cultivar.

Description:

- Attractive purple skin and yellow flesh with globe shape.
- Very high yields of dry-matter at medium dry-matter content.
- Clubroot resistance from Invitation.
- Powdery mildew resistance from both parents.

Cattle and Sheep:

- Autumn and winter.
- Graze in situ by sheep with electric fence to reduce wastage.
- Lift, store and feed to beef cattle.

Culinary use:

- Autumn and winter.
- Recommend sowing Grade H seed with precision drill.
- Recommend covering with fleece or Wondermesh to control root flies.
